

Four and Five Year Olds (Pre-kindergarten)

We work with our Pre-K children to help prepare them for the challenges of and transition to elementary school. Two of the most important skills for this change are following directions and listening skills. We help them with self-control, empathy, and learning to be part of a group. They are better able to express their ideas at this age and begin to understand and obey classroom rules. Early literacy including writing letters and their name, math, science, art, small motor, music activities are balanced with free play and healthy outdoor play times for a well-rounded curriculum. We offer weekly chapel time to strengthen their spiritual and character development.
